

Health System Participation in Medicare Bundled Payment Models, 2016

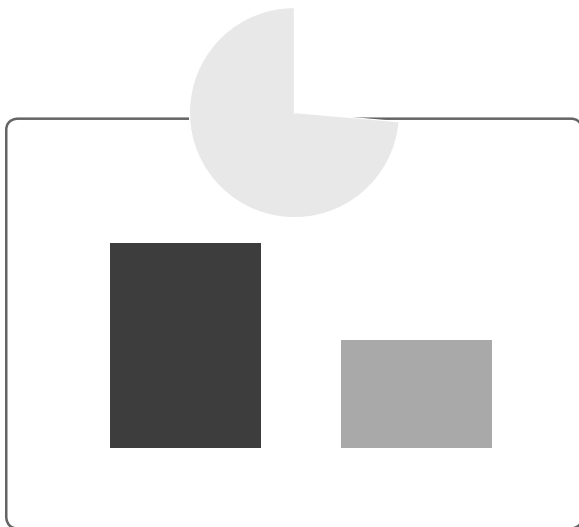

Data Highlight, No. 6

January 2019

Hospital participation in Medicare bundled payment models, by system membership

System hospitals are more likely to participate in Medicare bundled payment models: Comprehensive Care for Joint Replacement (CJR) model or Bundled Payments for Care Improvement (BPCI) initiative.

28% of system hospitals (N= 3,513)
participate in a Medicare bundled
payment model

About the Comparative Health System Performance Initiative

The Agency for Healthcare Research and Quality (AHRQ) created the Comparative Health System Performance

Initiative to help health systems improve their performance. The use of PCOR evidence holds promise as a way to improve clinical outcomes and reduce costs. However, little is known about how to best use PCOR evidence to improve performance.

The CHSP Initiative aims to address these knowledge gaps and accelerate the diffusion of PCOR evidence among

health systems. The CHSP Initiative will support the development and implementation of PCOR evidence-based practices.
